

TOUCHLESS TRENDS

TO COMBAT THE SPREAD OF GERMS AND VIRUSES

TIMELESS COMMITMENT TO GREEN BUILDING AND WATER EFFICIENT ECO-FRIENDLY PRODUCTS

Touchless hygiene and sustainability are basic requirements for any commercial washroom today, and at Stern we work tirelessly to ensure the cleanest, greenest, and healthiest sanitary experience is both practical and stylish.

We are pleased to take this opportunity to share some of our most celebrated contributions to the world of sanitary euphoria. In line with the desire to bundle and package for ease, comfort and style, Stern offers a wide variety of soap and water combos, including our compelling twosomes, our vigorous threesomes, and our revolutionary SWAR, a complete sanitary solution, enclosed in a cabinet with a lockable mirror. To further aid your artistic inclinations, we've innovated a wide variety of concealed solutions that fit perfectly in any environment.

And to add nuance to your choice, our products are available in a wide variety of materials and finishes.

STERN DUO

Water & soap come together, perfectly matched! Options abound with this versatile touch-free pair: deck- or wall-mounted, transformer- or battery operated, and multiple possibilities for an esthetic design and a variety of special finishes.

STERN TRIO

Complete solution for hand washing and drying!
Eliminate those messy, slippery floors, with Stern's all-in-one handwashing solution for either deck- or wall-mounted designs.

CSABA 2 IN 1

For the ultimate 2-for-1 solution, look no further than this single-unit deck mounted soap and water knight in shining armor.
Csaba 2-in-1 is the ideal solution for retrofit projects where only one deck opening is available in the basin, and comes with a peristaltic pump enabling its use with any kind of liquid soap.

SWAR

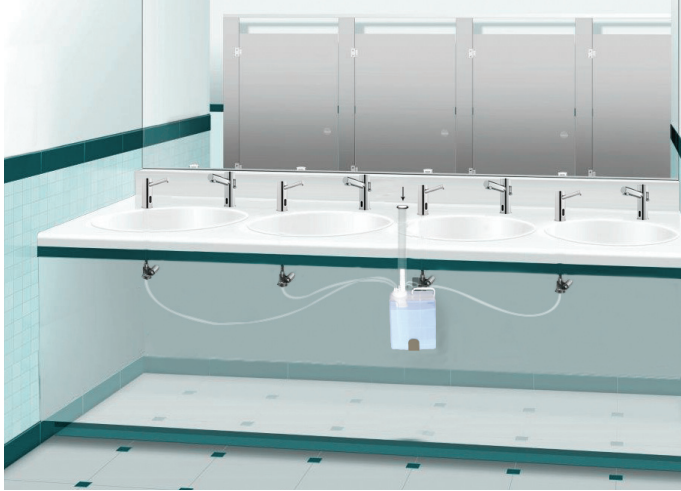

SOAP WATER AIR REVOLUTION

Stern's SWAR hand washing station elegantly combines cleanliness, practicality, and cost-effectiveness in a contemporary sanitary cabinet with a lockable mirror, including LED pictograms for intuitive user guidance.

MULTI-FEED SOAP DISPENSER

Top filling, compatible with non-proprietary soap, and including a soap level LED indicator, our under the deck Multi-feed Soap Dispenser greatly cuts down on soap and reduces maintenance costs, making it a real bonus for any high traffic & commercial bathrooms.

NOBLE 3032:

IMPROVED SANITATION AND WATER CONSERVATION IN COMMERCIAL TOILETS

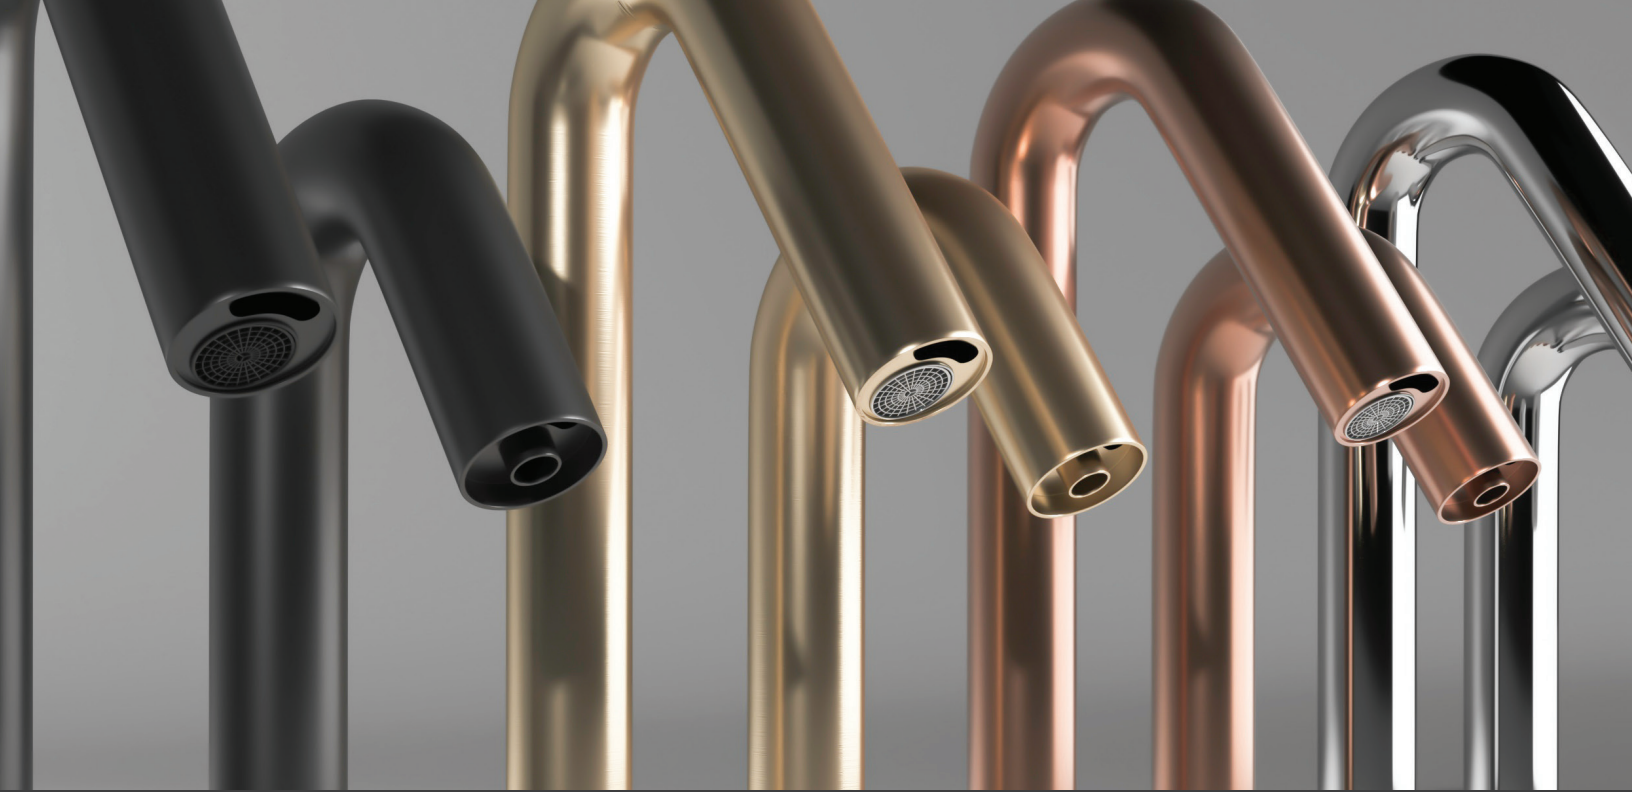

Stern's Noble 3032 leads the way to maximum hygiene with touch-free operation. This original high-efficiency concealed stainless-steel AISI 316 toilet flush comes with 1.28 GPF, making it a boon for water savings. Designed specifically for the US market according to our customer needs, Noble 3032 conforms with ASSE 1037.

STAINLESS STEEL AISI 316 MATERIAL

Stainless Steel AISI 316 is a material that offers corrosion resistance, formability, strength, and easy maintenance. Combining elegant design with vandal resistant features, now more resilient than ever, our Stainless Steel AISI 316 series is long lasting even under the harshest conditions.

OUR FINEST FINISHES

MIX AND MATCH WITH A SPLASH OF COLORFUL SPECIAL FINISHES TO PERFECTLY BLEND WITH YOUR DESIGN

POLISHED CHROME

Resistant to rust and corrosion, chrome is both cost-effective and easy to clean.

The graceful chrome-plated finish is created through electroplating, which applies a liquid metal coating through electro deposition. As the deposited metal fuses to the base material, the refined and durable finish created is Stern's collection default.

MATT BLACK

Powder coating is a finishing process in which a coating is applied electrostatically to a surface as a dry powder before heat is used to finalize the coating. The powder forms chemical bonds in the process, creating a flexible, durable finish that is highly resistant to corrosion, flaking, and scratching.

Exceptionally versatile and easy to clean, powder coating does not show dirt, water spots, or fingerprints.

PVD SATIN GOLD

A velvety effect that goes well with contemporary and industrial styles.

PVD COPPER

Classic, warm and bold, copper has that unique "je ne sais quoi" to make it stand out.

PVD ANTIQUE BRONZE

Dramatic and striking, antique bronze lifts the ambiance with a touch of texture.

PVD BRUSHED NICKEL

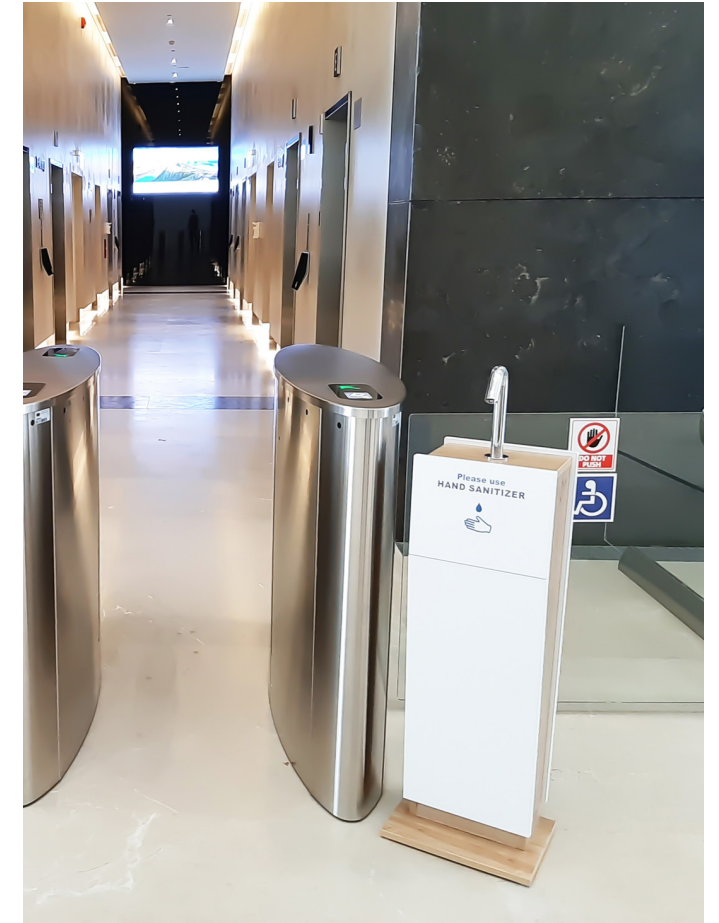

Popular for its "stainless steel" appearance, PVD Brushed Nickel creates a sophisticated and cool look that hides fingerprints and water spots.

TOUCH FREE HAND SANITIZER STANDS

Stern's touch free hand sanitizer dispenser stands are recommended for placement in high traffic public areas such as supermarkets, banks, lobbies, educational institutions, vending machine areas, restaurants, transportation, shopping malls, airports and hotels. The touch free dispensers are available in several models from either standard full brass chrome plated or premium Stainless Steel AISI316 material and are powered by either 6 x D batteries or 12V transformer.
